

EAB Navigate Resource Guide: How to Enter Appointments and Drop-ins Availability

Entering Appointments and Drop-ins (office hours) Availability

Definitions for entering Appointments and Drop-In hours for student scheduling:

****Drop-ins hours should be understood as synonymous with office hours. Entering Drop-ins availability in EAB functions as a digital posting of office hours and displays as such to students.**

****Appointments should be understood as passive availability for any selected service reason (as opposed to Campaigns which function as an active out-reach to students). Appointments allow you to control when a student may meet with you and for what service reason through advance scheduling.**
