**Parents, families and community volunteers can be significant resources in helping create a supportive and welcoming environment at schools and facilitating students' behavior and performance. As positive role models and student motivators, volunteers are viewed as contributing to better school attendance, improved grades and test scores, matriculation, less misbehavior, better social skills, staying in school, graduating, and going on to college. Henderson and Mapp (2002)**

For these reasons the Fredericksburg City Public School division encourages and invites family and community members to volunteer to support the educational experience of our students.
