JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)

CPSC 321 was replaced with CPSC 330 (Object Oriented Analysis and Design) several years back. We kept CPSC 321 on the books to make sure that students under the old requirements would finish using those requirements. It has been 5 years since this change and the students who started with those requirements have either graduated or we will make an exception to the major if they take CPSC 330. In addition, the content in that course has either become outdated or absorbed by CPSC 330.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)
