JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)

CPSC 110 and MMIS 500 will provide students with the appropriate programming and management information systems background needed for this course.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)

Current students should not be impacted. CPSC 110 is replacing the current foundation requirement of CIST 304 because of the teach out of the BPS program. The proposed prerequisite course, MMIS 500, is a required core course in the current MSMIS degree program.

Approvals

Department Chair _______ Ken Machande ____________ Date: _____11/7/12_______

College Curriculum Chair _______ Gail Brooks ____________ Date: _____11/7/12_______

Expedited course changes are posted for a 10-class day comment period. If no comments are raised during that time, the proposal becomes final. All expedited proposals approved in this way will be noted on Expedited Course Change Cover Sheet (July 2012)
If comments are raised, the proposal may be reviewed by the UCC and then approved or it may be returned to the CCC for additional deliberation (as required).
