JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)

Undergraduate students who have not taken this course will take the 400-level the Teaching of Mathematics and Computer Science course instead. This is being done to enhance the methods course and to be able to cross-list it with the 500-level Teaching of Mathematics and Computer Science course so as to provide a more unified experience for students in all our Secondary programs.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)

Starting in Fall 2013, students who are in the Secondary program will be required to take the 400-level Teaching of Mathematics and Computer Science course if they have not already taken EDUC 321. Students who have taken EDUC 321 will not have to take the 400-level course.

Approvals

Department Chair ____________ Marie Sheckels ____________ Date: __November 19, 2012__

College Curriculum Chair ________ Beverly Epps ______________ Date: __November 27, 2012__

Expedited course changes are posted for a 10-class day comment period. If no comments are raised during that time, the proposal becomes final. All expedited proposals approved in this way will be noted on Expedited Course Change Cover Sheet (July 2012)
If comments are raised, the proposal may be reviewed by the UCC and then approved or it may be returned to the CCC for additional deliberation (as required).
