**JUSTIFICATION** (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required). **Any change that impacts another Department must have a written statement (such as a copy of an email) from the Chair(s) agreeing to the change.**

Historic preservation programs generally have an introductory course in the first semester, one that introduces students to the field and profession. We stand alone in having a course focusing on architectural terminology and building history in that position. We wish to bring our program more in line with others in this regard. Therefore, we propose to switch 101 and 102. The proposed numbering change to HISP 105 would make clear the 105/205/305/405 sequence at the heart of the major. Content of this course will remain unchanged.

**TRANSITION PLAN** (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)

The course content will not change, so HISP 101 and the new HISP 105 will satisfy the same requirement.

**Approvals**
