UNIVERSITY OF MARY WASHINGTON – EXPEDITED COURSE CHANGE PROPOSAL

Submit this form electronically, beginning with the first required level of review (department or college level). Each level of review passes the form and any attachments to the next level when the action is approved.

Submitted by: Randall Helmstutler	**Date Prepared:** 9/25/2017
Department/Discipline(s) and Course Number(s): MATH 223	
Course Title: Calculus III	

Type of change (*check all applicable*):
Number* _____ Title_____ Description____ Prerequisites ____ Deletion__X___ Cross list**____
**This course number must be approved by the Office of the Registrar before the proposal is submitted.*

***To cross list courses between departments/colleges, there should be two cover sheets submitted with the proposal – one by the chair of each department with signatures from the relevant College Curriculum Committee Chair.*

Effective Date: FALL Semester, Year __2018_____

Current Catalog Entry	**Proposed Catalog Entry** (suggested length – less than 50 words)
MATH 223 – Calculus III (3) Prerequisite: MATH 122. Includes analytic geometry, parametric equations, polar coordinates, improper integrals, L'Hôpital's rule, sequences, and infinite series.	

JUSTIFICATION *(including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required).* **Any change that impacts another Department must have a written statement (such as a copy of an email) from the Chair(s) agreeing to the change.**

MATH 223 is now obsolete with the recent restructuring of our Calculus sequence. We have already moved from four 3-credit courses to three 4-credit courses: the material in MATH 223 now resides in MATH 122 and 224. Our majors, minors, and all affected programs have already adjusted for this transition, effective Fall 2017. We are currently teaching the final teach-out section of MATH 223 for those students declared under old catalogs where 223 was required. There is no impact on the general education program as 223 is not a general education course. MATH 223 will be obsolete by Spring 2018 (and will not be offered then).

TRANSITION PLAN (*describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)*

The transition has already occurred; the final teach-out section is running now. All necessary curriculum changes affected by this have already been approved and put in place, effective Fall 2017.

Approvals

Expedited course changes are posted for a 10-class day comment period. If no comments are raised during that time, the proposal becomes final. All expedited proposals approved in this way will be noted on the UCC web site. If comments are raised, the proposal may be reviewed by the UCC and then approved or it may be returned to the CCC for additional deliberation (as required).
