Proposed Catalog Entry

Prerequisites: Junior Status OR permission of Associate Dean for Faculty. An integrative approach to organizational concepts, principles, philosophy, and theory in public, private, and not-for-profit organizations is emphasized. Current decision-making approaches utilizing theories of organizational behavior, general systems and contingency theories are linked to the managerial functions of planning, organizing, leadership, and control.

JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)

The College of Business is renaming discipline-specific classes to more clearly communicate which classes belong to which business disciplines. It should make it much easier for students to find and schedule classes of interest to them.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)

We have discussed this with both the registrar and our advisor and there should be no adverse impact to students. Since the same classes will be offered under a more precise name, students under the old catalog can simply substitute the new class for the old (for example, if a student needs BUAD 300, he or she will substitute MGMT 301).

The consensus among the management faculty is that Accounting should not be required for the class as an understanding of basic accounting principles is not assumed nor required for the material.
