Proposed Catalog Entry
Prerequisite: LSRP 201 or equivalent. This course studies financial management, with an emphasis on using the financial statements and other financial data to make decisions to improve the organization’s economic performance. Topics include financial management principles and concepts, financial risk, working capital management, time value of money, cost of capital, stock and bond valuation, and the financial regulatory environment. College of Business majors cannot take this class; they should take FINC 301 instead.

JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)
LSRP was never intended to be taken by our BUAD majors; this change closes a loophole and clarifies the intent of the class for students. The prerequisite change is not really a change, but a correction. LSRP 201 is the old ACCT 201.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)
There is no need to transition. This change will result in students being required to do what the College of Business intended them to do (and most are already doing so).
