JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)
The change to the prerequisites is required to reflect renumbering of the CPSC intro sequence.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)

Expedited Course Change Cover Sheet (July 2014)
This change does not affect people who are in catalogs where the course is an elective for the major. People who have already completed CPSC 230 (the current prerequisite) can still register for the course with the new prerequisite. Additionally, the new prerequisite accommodates students who have completed two programming courses in the new introductory sequence.

Date:

Expedited course changes are posted for a 10-class day comment period. If no comments are raised during that time, the proposal becomes final. All expedited proposals approved in this way will be noted on the UCC web site.

If comments are raised, the proposal may be reviewed by the UCC and then approved or it may be returned to the CCC for additional deliberation (as required).
