<tr>
<td>GISC 580 – Geospatial Data and Services on the Web. In this course, students will acquire the knowledge needed to share GIS content on the Web or across the enterprise. The course will focus on workflows to publish maps, imagery, geoprocessing models, and feature templates for use in Web applications that support visualization, analysis, and editing of GIS resources (4 credits).</td>
<td>MSGA 580 – Geospatial Data and Services on the Web: Laboratory. In this course, students will acquire the knowledge needed to share GIS content on the Web or across the enterprise using relevant programming techniques. The course will focus on workflows to publish maps, imagery, geoprocessing models, and feature templates for use in Web applications that support visualization, analysis, and editing of GIS resources. Laboratory will meet weekly; assignments will be weekly or bi-weekly (4 credits).</td>

JUSTIFICATION (including impact on majors, minors, concentrations, and general education courses within the University curriculum; attach additional pages if required)
Changing the prefix of each course number clarifies that these courses comprise the curriculum of the masters of science in geospatial analysis (MSGA) program and that they are not a part of the existing GISC curriculum. The program proposal being considered by SCHEV uses the MSGA course numbers. Description change addresses concerns raised by SCHEV staff. Specifically, they wanted description to specifically state it is a laboratory class and that laboratory assignments will include programming.

TRANSITION PLAN (describe how will students who are in Catalogs where the course is required for a major be accommodated; attach additional pages if required)
No transition plan is necessary since these courses have not yet been taught.

Approvals

Department Chair ______ Stephen Hanna __________________________ Date: ____10-10-13_______

College Curriculum Chair ____ Tim ODOnnell ______________________ Date: ____10-23-13_______

Expedited course changes are posted for a 10-class day comment period. If no comments are raised during that time, the proposal becomes final. All expedited proposals approved in this way will be noted on the UCC web site.

If comments are raised, the proposal may be reviewed by the UCC and then approved or it may be returned to the CCC for additional deliberation (as required).

Expedited Course Change Cover Sheet (July 2013)
