This new course will be (check all that apply):

- Required in the major: X
- General Elective
- Elective in the major: 
- General Education**

**AFTER the new course is approved, a separate proposal must be sent to the General Education Committee.

**Catalog Description:**

Materials and structural elements of tonal music: scales, intervals, and chords. Explores major-minor tonality, figured bass, 7th chords, cadence formulae. Includes principles of voice-leading and harmonic progression. Analysis emphasized. Co-requisite: MUTH 192

### COURSE HISTORY

<table>
<thead>
<tr>
<th>Was this course taught previously as a topics or experimental course?</th>
<th>YES</th>
<th>NO</th>
<th>X</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Course Number and Title of Previous Course</th>
<th>Semester Offered</th>
<th>Enrollment</th>
</tr>
</thead>
</table>

CHECK HERE if the proposed course is to be equated with the earlier topics or experimental offerings. This means that students who took the earlier “topics” course will only be able to take the new course if they made a C- grade or lower in the earlier course.

**NOTE:** If the proposed course has not been previously offered as a topics or experimental course, explain in the attached rationale statement why the course should be adopted even though it has not been tried out.

### REQUIRED ATTACHMENTS:

1. **Rationale Statement** (Why is this course needed? What purposes will it serve?)
2. **Impact Statement** (Provide details about the Library, space, budget, and technology impacts created by adding this new course. Include supporting statements from the Library, IT Department, etc. as needed.)
3. **Sample Syllabus**

Department Chair Approval: Gregg Stull  
Date: 2/1/15

CCC Chair Approval:  
Date: 2/12/15

UCC Chair Approval:  
Date:  

New Course Proposal Cover Sheet (July 2013)
**Rationale**
Diatonic Music Theory is needed as the first course in the revision of the music major. It will serve as the first of three foundational music theory courses in the major. Because it is replacing a previous course, it has not been offered as a topics or experimental course.

**Impact**
Diatonic Music Theory will have no additional impact on the Library. Classroom space will be available because this course is replacing an older one. Technology already exists to support this course. Diatonic Music Theory will have no impact on budget.

**Sample Syllabus**

**MUTH 191: Diatonic Music Theory**
MWF 11:00 – 11:50 Pollard 213

**GENERAL SYLLABUS; FALL, xxxx**

Additional Materials:
- Handouts
- Pencil ↔ ↔
- Manuscript Paper

**Topic I: Fundamentals**
approx. 6 class days
Chapter 1
Chapter 1 and 2

**Topic II: Introduction to Tertian Triads and Seventh Chords**
approx. 6 class days
Chapter 3
Chapter 4
1st exam

**Topic III: Introduction to Harmonic Progression and Part Writing**
approx. 12 class days
Chapter 5
Chapter 6
Chapter 7
Chapter 9
2nd exam

**Topic IV: Introduction to 7th chords**
approx. 9 class days
Chapter 13
Chapter 14
Chapter 15
3rd exam

Topic V Introduction to Non-Harmonic Tones and Elements of Form approx. class days
Chapter 11
Chapter 12
Chapter 10

GRADING

You will be analyzing and/or composing frequently [Analytical Theory & Applied Theory]. Ungraded exercises are to prepare you for graded assignments. Since all graded assignments are "open book", the following scale will apply:

1 error = A-
2 errors = B
3 errors = C
4 errors = C-
5 errors = D
6 errors = F

These will be converted as follows:
A = 100, A- = 94, B = 90, C = 80, D = 72, F = 65, not turned in = 0

Remember that neatness counts.

The exam dates listed are approximate. You will have a full week advance notice for each. All exams will use a point system which will be converted to a percentage. Exams are likely to have a take-home portion and an in-class portion.

There will be 2 projects: a composition and an analysis paper (details later) which will be placed in your Outcomes Assessment file. These will also use a point system and will be converted to a percentage. You will be using Finale software for your composition and possibly for illustrations to be exported into your analysis paper.

Scale for exams and projects:

95-100% = A
92-94 = A-
90-91 = B+
86-89 = B
84-85 = B-
81-83 = C+
77-80 = C
75-76 = C-
72-74 = D+
66-71 = D

Note: The college system for GPA quality point computation dictates A = 4.0, A- = 3.7, B+ = 3.3, B = 3.0, B- = 2.7, C+ = 2.3, C = 2.0, C- = 1.7, D+ = 1.3, D = 1.0

The final exam is cumulative. [The only new material will be from Topic V.] Save your exams for study guides.

SEMESTER GRADE COMPUTATION

Graded Assignments (average of several entries): 1/7
1st exam 1/7
2nd exam 1/7
The MWC Honor Code is in effect for all classwork. There are some variations for your projects and I will discuss these at appropriate times.

The Office of Disability Services has been designated by the University as the primary office to guide, counsel, and assist students with disabilities. If you already receive services through the Office of Disability Services and require accommodations for this class, make an appointment with me as soon as possible to discuss your approved accommodation needs. Please bring your accommodation letter with you to the appointment. I will hold any information you share with me in the strictest confidence unless you give me permission to do otherwise. If you have not contacted the Office of Disability Services and need accommodations, (note taking assistance, extended time for tests, etc.), I will be happy to refer you. The office will require appropriate documentation of disability. Their phone number is 540-654-1266.

---

My job is to help you as a guide and advocate by helping to remove obstacles to your learning, comprehension, and musicianship. Your job is to be an active and involved learner. PLEASE DO NOT HESITATE TO CONTACT ME OUTSIDE OF CLASS IF YOU ARE HAVING DIFFICULTY.

syllabus p2

MUTH 191
Diatomic Music Theory

Explores major-minor tonality, figured bass, 7th chords, cadence formulae, partwriting, and progressions as exemplified in period pieces. Analysis and composition emphasized.

This course has three essential and interrelated goals:

1) To discover and identify primary principles of tonal harmonic theory as applied by composers in the Baroque and Classic Periods. [ABSTRACT THEORY]

2) To develop practical skills incorporating these principles via the representative musical vocabulary and practice of the styles. [APPLIED AND ANALYTICAL THEORY]

3) To continue to develop an historical perspective of the art and craft of music composition as a continually evolving process involving real people, real problems, and real solutions.
