UNIVERSITY OF MARY WASHINGTON – PROGRAM CHANGE PROPOSAL

Electronically submit this completed form with attachments in one file to the Chair of the College Curriculum Committee.

COLLEGE (check one):	Arts and Sciences	Business		Education	х
Proposal Submitted By: Janine Davis		Date Prepared: 8/9	Date Prepared: 8/9/19		
Department /Program:	4-year licensure in secondary and Pk-12 content areas				

 Note: for any program change entailing the addition any new courses, or revisions to existing courses, separate proposal for those course actions must also be submitted. If the proposal involves changes in course credit hours as a part of the program change, "Change_Course_Credits" proposal forms for each course with revised credit hours must also be submitted.

PROPOSAL TO CHANGE EXISTING PROGRAM (check no than one of the following).		
Revise requirements for existing major		
Revise requirements for a concentration within an existing major		
Revise requirements for an existing degree program		Х
Revise requirements for existing certificate program		
Revise requirements for existing minor		
Implementation Date: FALL semester, year: Fall	2020	

PROPOSAL TO CREATE NEW PROGRAM NOT REQUIRING STATE ACTION (check no more that one of the following) New concentration within existing major Name: New minor Name: New Major but NOT a new degree* Name: *Use ONLY for interdisciplinary majors that will be grouped as part of the "Special Majors/General Liberal Arts and Sciences" degree (CIP Code 24.0101) or reported as a BLS degree (CIP Code 24.0199) Implementation Date (semester and year): Fall 2020

<u>REQUIRED ATTACHMENTS FOR ALL PROPOSALS FOR PROGRAM CHANGE OR FOR NEW PROGRAMS NOT</u> <u>REQUIRING STATE APPROVAL:</u>

- 2. Rationale statement (Why is this additional program needed? What purposes will it serve?)
- 3. Impact Statement (Provide details about the Library, space, budget, technology, and impacts created by this program change. Supporting statements from the Library, IT Department, etc. evaluating the resource impact and feasibility of adding the new program are required.) If the proposal involves changes in course credit hours as a part of the program change, "Change_Course_Credits" proposal forms for each course with revised credit hours must also be submitted.
- 4. Catalog Copy (Provide the complete Catalog Description for the proposed new program)
- 5. Any change that impacts another Department must have a written statement (such as a copy of an email) from the Chair(s) agreeing to the change.

Department Chair Approval*:

Date: 8/27/19

Maris P. Shechels

CCC Chair Approval:

Date: 8/29/19

Date: 8/29/19

Dean Approval: *COB and COE

proposals approved by the Associate Dean.

BEFORE consideration by the UCC, the proposal must be approved the three levels noted above. Approval by the UCC, UFC, and Provost** are noted on the proposal "status history" at the UCC web site.

**Provost approval is required in cases of proposals for new concentrations, new minors, new majors that do not involve a new degree, or program changes involving changes to credit hours of courses in the program's requirements.

Rationale statement (Why is this additional program needed? What purposes will it serve?)

In 2018, a change in Virginia state regulations allowed for a Bachelor's degree in education. Additionally, the state has released an updated set of regulations for teacher licensure programs <u>Elementary</u>, <u>Secondary/PK-12</u>, along with content-specific <u>regs such as 290, 310, etc.</u> While some institutions in Virginia (Longwood is one example) have offered an undergraduate path to licensure--this may have been a major in Interdisciplinary Studies, followed by a full-time internship, but no Master's degree--UMW has most recently offered a Master's in Education that can be completed in five years and that leads to licensure.

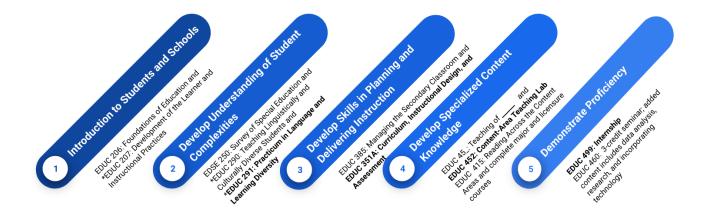

A representative group of faculty and administrators from the College of Education met over the summer of 2018 to discuss the feasibility of and potential need for adjusting our programs. We concluded that we would like to propose a path to licensure in four years, and during the course of this academic year (2018-19), we have sought the input and involvement of all COE faculty in this process.

Secondary and PK-12 Licensure Areas

UMW once had a four-year program that was similar to the one that is outlined in this proposal. Students completed a major in their content area and took COE courses as an undergraduate, and then returned to complete their full-time internship (often referred to as "student teaching") for one semester, which led to licensure. The Master's degree was added as a requirement for new students in 2012-13. A major component of the 5th-year courses has been conducting research on teaching practices. The full-time internship also comprises a large portion of the credits for the Master's degree.

Although it would be permissible under the new state regulations, faculty determined that because content knowledge in their licensure area is so crucial for secondary and PK-12 teachers, students would continue to earn an undergraduate degree with a major in their content area, along with a program in COE (not a Master's) that would lead to licensure. The following figure outlines the phases of the new four-year program in secondary and PK-12 licensure areas.

4-Year Program in Education: Secondary/PK12

*denotes new or substantially changed course Courses in bold have/are a practicum or internship experience

Although the new four-year program will remove a year of training, we will introduce a sequence of courses that will allow instructors more consistent and continual building of student skills and knowledge as compared to the current model. This program will be rigorous, but it will enable UMW to help this and other states address crucial teacher shortages that now are being filled with unskilled or underskilled teachers.

Impact Statement (Provide details about the Library, space, budget, technology, and impacts created by this program change. Supporting statements from the Library, IT Department, etc. evaluating the resource impact and feasibility of adding the new program are required.) If the proposal involves changes in course credit hours as a part of the program change, "Change_Course_Credits" proposal forms for each course with revised credit

Program Change Proposal Cover Sheet (September 2018)

hours must also be submitted.

We will phase out our existing 5-year Master's program and phase in the new 4-year program over the course of the next five years (until 2025), which will mean that as courses in the old program close, those in the new program will replace them in faculty members' schedules. Due to the extended nature of the program change and uncertainty about numbers of students who will opt to switch into the new program, it is not possible to plan a rigid faculty course schedule. One new course, EDUC 452: Content-Area Teaching Lab, will follow a similar model to existing five-year program courses and allow faculty members to supervise students in local practicum experiences while earning credit for a set number of students. This will allow faculty to address candidate teaching challenges much earlier in the program than ever before.

We are aware of the need for clear and constant communication with all students in the five-year program as we schedule the final offerings of courses in the existing five-year program. This communication will begin with students who are considering applying to UMW and COE before the fall of 2020 and consist of emails, meetings, and messages sent through advisors and/or the program director every semester. We have had success with having students sign agreements for updates to program requirements such as passing entrance tests, and so a similar agreement regarding which program the student will complete will be collected from every student during and/or after application to COE.

The following is a timeline of course offerings for the new, four-year programs. Due to the complexity of timing course offerings, we will follow a cohort model and offer courses only during specific semesters. Furthermore, because UMW has recently adopted new general education requirements, we have planned a complete recommended schedule for students for the entire four years; of course, student needs will vary, and those who bring in transfer credit and/or opt to add a second major or one with more than the indicated number of courses will follow a slightly different path, with the exception of the education courses. This pacing would work with transfer students who bring in EDUC 206 and EDUC 207, which are currently part of the Germanna Community College Education Pipeline Agreement. The college will also consider transfer credit for those two classes from other institutions.

1 Fall 2020 (15 credits)	1 Spring 2021 (15 credits)		
FL Requirement	Elective		
FSEM	Elective		
STAT 180 (Quant Reasoning)	FL requirement		
Gen Ed (Arts)	Gen Ed (Humanities)		
Gen Ed (DI)	Major course		
2 Fall 2021 (16 credits)	2 Spring 2022 (15 credits)		
Major course	Gen Ed (Social Science)		
Major course	Major course		
Gen Ed (extend Methods of Investigation)	Gen Ed (extend Methods of Investigation)		
FL Requirement	EDUC 206 - Foundations		
Gen Ed (Natural Science)	EDUC 207- Human Development (WI)		
3 Fall 2022 (16 credits) Major course Major course (SI) Major course EDSE 250 - Intro to SPED EDUC 290 - Teaching Ling & Culturally (Diverse and Global Perspectives Gen Ed) EDUC 291 – 1 credit	3 Spring 2023 (16 credits) Major course Major course EDUC 351: Instructional Design and Assessment (sec/PK12 can take in fall or spring) (SI) EDUC 385 - Classroom Management		
4 Fall 2023 (16 credits)	4 Spring 2024 (12 credits)		
Major course (WI)	EDUC 499 – Internship – 9 credits		
Major course	EDUC 460 – Seminar: Secondary – 3 credits		
Elective	(After UMW)		

Secondary/PK-12 Course Sequence

EDUC 415 - Literacy Across the Curriculum EDUC 45x: Teaching of (all content areas <u>must</u> move to fall offering) EDUC 452: Teaching Lab: Secondary (1 credit) (Beyond the Classroom) (We also plan to offer EDUC 499 and EDUC 460 in fall for those wishing to complete in 4.5 years. This would also relieve some pressure on local schools to house huge numbers of student teachers in the same semester)	Students needing financial aid or additional time could save one major course for the summer after the internship and still walk at May graduation.
---	--

*Courses indicated with gen ed designations are intended as such but are not currently approved; they will go through approval for our new gen eds when this process begins and once the curriculum approval is underway.

No additional requirements are needed in terms of other offices or staff; however, it is important to note that program numbers may increase with the decrease in overall cost and time for students to reach licensure, which may lead to requests for additional faculty in the future. Courses with a low student-faculty ratio that will not exist in the new 4-year path to licensure include EDUC 536 and 530. We are currently supporting approximately 80 5-year elementary, secondary, and PK12 student interns each year with our current budget.

Catalog Copy (Provide the complete Catalog Description for the proposed new program)

**Please note that this is the copy to appear in the 2020-2021 catalog. We will submit additional language for the elementary and special education programs to accompany this entry in the fall of 2019. Please also note that references to the 5-year Master's degree programs in education should be removed from the Graduate catalog beginning in Fall of 2020.

UNDERGRADUATE PROGRAMS IN EDUCATION

Secondary and PreK-12 Licensure Areas

The College of Education offers, as electives toward the bachelor's degree, courses designed to prepare the liberal arts student to meet requirements for licensure as a teacher.

The College offers undergraduate licensure pathways for students pursuing licensure at the PreK-12 level in Visual Arts, Foreign Language (French, German, Latin, Spanish), Music, and Theatre Arts. The College also offers Secondary licensure in grades 6-12 in each of the following areas: Biology, Chemistry, Computer Science, English, Earth Science, History and Social Science, Mathematics, and Physics. Add-on endorsements are offered in Journalism, Speech Communication, and Algebra I. Students complete education course work and field experiences at the undergraduate level.

Throughout the program, students gain experiences and skills in monitoring their own professional growth through research, refle c tion, and problem solving. Some courses require students to complete field experiences in the public schools.

College of Education students have access to all the Academic Resources outlined in that section of this Catalog. All University Academic Policies described in the Catalog apply to the College of Education students. Students must complete general education requirements, a liberal arts or sciences major, and professional studies (education course work) requirements. The professional studies component provides students with background knowledge and experience in curriculum planning and implementation with a focus on teaching the national and state standards.

All students who gain admission to the program are eligible to join the Student Education Association. Juniors or seniors with high academic achievement are invited to become members of the Nu Xi Chapter of Kappa Delta Pi, an international honor society in education. Awards are given each year to students who excels in supervised teaching, academicachievement, and Program Change Proposal Cover Sheet (September 2018)

leadership. Students in the Teacher Education Program have the opportunity to apply for a variety of scholarships.

Admission, Continuation, and Program Completion Requirements

Admission to the Teacher Education Program is by application directly to the College of Education. Admission is competitive and is based on academicachievement in the undergraduate program and on other indications of potential in meeting the program goals. Students interested in seeking credentials to teach should contact the College of Education as early in their college career as possible and are strongly advised to attend a Group Information Session on the Teacher Education Program. Group Information Sessions are offered throughout the academic year. At these sessions, students are informed of the features and requirements of the program. Students are advised of the required Minimum Performance Standards and are asked to apprise the department of requests for accommodations. UMW students who are interested in the Teacher Education Program should attend one of these Group Information Sessions as soon as possible. Prospective transfer students who are interested in the Teacher Education Program should attend one of these Group Information Sessions.

For Undergraduate Admission and permission to take the first education courses, Education (EDUC) 206 and 207, current UMW students must have passed the Praxis Core test or gualifying equivalent assessments, attained a 2.5 GPA or better on at least 12 UMW credits. See the College of Education website for due dates for application for admission to Education 206 and 207. Transfer students who have a 3.25 GPA may apply to take EDUC 206 and 207 their first semester at UMW. They should submit their application by the dates posted on the College of Education website; applications can be found on the College of Education website. Transfer students who do not submit applications by these deadlines or do not meet the above requirements should apply to take these courses once they are enrolled at UMW under the guidelines for current UMW students.

A student who has satisfie d all admission requirements with the exception of passing scores on the Praxis Core or one of the qualifying substitutes may be admitted provisionally to the program. The student will be limited to taking P h a s e I courses (EDUC 206 and 207) prior to submission of (1) passing scores for the Praxis Core, or (2) passing scores for the VCLA plus a passing score on the Math Praxis Core, SAT or ACT.

A provisionally admitted student will receive a letter outlining requirements for continued enrollment. Upon submission of the passing score reports, the student may be formally admitted to the degree program. Students are expected to complete courses in a predetermined sequence according to their cohort's requirements and to participate in regular education advising.

To continue in the program, students are responsible for following the regulations and application deadlines. To continue in the program students must do the following: (a) maintain good academic standing with an overall cumulative GPA of 2.5 or better; (b) achieve a GPA of 3.0 or better in all education courses; (c) demonstrate satisfactory progress on all Professional Competencies; (d) be current on all Professional Clearances; and (e) achieve satisfactory evaluations in all fie I d experiences. Students not formally accepted into the Program should note that there is a 12-credit limit on education course work that may be applied toward the degree. A student who receives more than one grade of C (2.0) or below in an education course will be dismissed from the program. Students must pass the required tests (Praxis II and VCLA) and apply to complete the full-time teaching internship at the designated and announced times in the year before internship is to be completed. Students must receive faculty approval to continue into the fulltime internship.

Successful completion of the program and recommendation for licensure to the Virginia Department of Education are contingent upon: (1) completion of all degree requirements; (2) a minimum 3.0 (B) or higher overall cumulative GPA must be in education courses; a grade of C+ or lower in internship results in dismissal from the program; and (3) achieving passing scores on all licensure examination and the Child Abuse Recognition Intervention Module, certific ation or training in emergency fir st aid, CPR and use of the automated external defibrillators, and completion of the Dyslexia Awareness Module, as required by the Virginia Department of Education.

Program Change Proposal Cover Sheet (September 2018)

Secondary (Grades 6-12) Requirements*:

EDUC 206 and 207; EDSE 250, EDUC 290, and EDUC 291; EDUC 351A and 385; Appropriate discipline-specific course from EDUC 453, 455, 456, or 458; EDUC 452; content-area licensure courses in major as outlined on checksheets; EDUC 415; and EDUC 460 and 499.

PreK-12 Requirements*:

EDUC 206 and 207; EDSE 250, EDUC 290, and EDUC 291; EDUC 351A and 385 or 388; Appropriate discipline-specific course from EDUC 454, 457, 459; EDUC 452; content-area licensure courses in major as outlined on checksheets; EDUC 415; and EDUC 460 and 499.

*Depending on their licensure area, students may also have additional or specific required courses in their major, which will be indicated for each cohort year on the College of Education checksheets. Substitutions for these requirements may be made by the program director, Associate Dean, and relevant department chairs.
