

Permission to Take a Course Out Of Sequence

Permission to Take Course as a Co-requisite

In rare instances, and in the event of compelling reasons, a student may need to take a course out of sequence or take the course as a co-requisite (e.g., take a course that is a higher numbered course before taking the lower-numbered prerequisite course or take both at the same time).

Students seeking permission to take either of these actions **MUST** obtain permission of the course instructor(s) and the department chair. Submit the form directly to the Registrar's Office during registration.
