

**Permission to Take a Course Out of Sequence
Permission to Take a Course as a Co-Requisite**

In rare instances, and in the event of compelling reasons, a student may need to take a course out of sequence or take the course as a co-requisite (e.g., take a course that is a higher numbered course before taking the lower-numbered prerequisite course or take both at the same time).

Students seeking permission to take either of these actions **MUST** obtain permission of the course instructor(s) and the department chair. The student will submit the form in person to the Registrar's Office, Lee Hall 206, during his or her appropriate registration time.
