

## What-if Degree Evaluations

What-if evaluations allow students to preview certain effects on their degree evaluations. This tool can be useful for seeing if you should move to new degree requirements or if a class will fall into a specific category.

Pull up your Degree Works degree evaluation. This is located in Banner SSB, along the left-hand side of the screen under your picture.

Just under the personal information you will see two tabs: Academic and What-if.

Click on What-if.

The screenshot displays the Degree Works interface. At the top, there are two tabs: 'Academic' and 'What-if'. A blue arrow points to the 'What-if' tab. Below the tabs, there is a 'View historic audit' dropdown menu showing '02/24/2023 at 8:49 AM UG/BS'. The main content area is divided into sections. On the left, there is a 'Format' dropdown menu set to 'Degree Audit'. In the center, there is a 'Degree progress' section with a circular progress indicator showing '65%' and 'Requirements'. To the right, there are checkboxes for 'In-progress classes' and 'Preregistered classes', both of which are checked, and a 'PROCESS' button. Below these sections, there is an 'Audit date' field showing '02/24/2023 8:49 AM' and links for 'Diagnostics', 'Student data', 'Save audit', and 'Delete audit'. A yellow arrow points to the 'Catalog year: 2021-2022' field in the 'Degree in Bachelor of Science' section, which also shows 'INCOMPLETE' and 'GPA: 3.02'.

Note: If you are checking to see if moving forward in catalog years will be beneficial, the yellow arrow shows what your declared Catalog year is.

Once you click What-If the next screen will automatically move to the current catalog year. The current program of study will automatically fill in as well.
